

Leading the Way

Your Strategic Partner

MetTel is a leading global provider of integrated digital communications solutions for enterprise customers. By converging all communications over a proprietary network, MetTel enables enterprise companies to easily deploy and manage technology-driven voice, data, wireless and cloud solutions worldwide.

Our comprehensive portfolio of customer solutions boosts enterprise productivity, reduces costs and simplifies operations. Combining customized and managed communication solutions with a powerful platform of cloud-based software, the company's MetTel Portal enables customers to manage their inventory, usage, spend and repairs from one simple, user friendly interface.

One Simple Solution for All Connectivity Types

MetTel consolidates vendors, platforms and points of contact for services, billing, repairs and provisioning.

Bruin Communications Management Platform

Bruin enables customers to manage ordering, help desk, trouble tickets, SLA management, billing, inventory, services, and reporting from one simple, user-friendly interface available 24/7/365.

Bruin's data analytic capabilities are unique. It empowers customers to obtain detailed insight and business intelligence regarding their telecommunication configurations. Bruin was awarded TMCNet Internet Telephony Product of the Year in 2016.
